Dear FEC:

The Committee amended its pre-primary report yesterday to provide the employment and occupation information requested in

the RFAI dated September 25, 2014. However, we inadvertently uploaded the report before the information for one of the contributors was entered. We tried to cancel the upload after it had begun, and FEC File reflected that it was canceled. However, the report was actually received and accepted. The FEC File software is not allowing us to amend again, apparently because of a glitch due to the fact that the upload was canceled (which appears to have been recorded in our FEC File). So, we are filing this Form 99 to provide the employment information regarding the single contributor for whom it is not reflected in the amended report:

Stuart Scudder is a retired attorney.

Thank you,
Thomas for Congress
